GRECO dossier - Proof of large-scale human rights crimes by GRECO member state Belgium

Full Justification supporting **GRECO Ad Hoc Procedure against Belgium**, with reliable, documented information proving that **institutional reforms and procedural changes in GRECO member State Belgium, have resulted in serious violation of Council of Europe anti-corruption standards**, which have been the subject of GRECO evaluation rounds

Not an individual case - a dossier on **Belgian human rights crimes involving dozens and hundreds of victims** in one aspect, **thousands of victims in others** - this **signed report representing voices of many others**, including **terrorised civil servants in Belgian government**, and also in EU Commission offices, **menaced with revenge if they speak**, some of whom are contacting GRECO anonymously to support inquiry against Belgium

This **dossier presented by an international anti-corruption expert**, an expert who recently **won a major case in Belgian courts against violations of human rights by Belgian officials seeking bribes**, involving brutal Belgian violations of EU Court Order C-535/19 on universal EU citizen access to EU health care systems, shocking the EU Court judges in Luxembourg

Terrorist threat of murder against the author of this report by Belgian officials have been documented with Belgian police; there is related **terror threat against GRECO officials** by a **murderous Brussels mafia**, whose operations are documented in this dossier and linked court and police filings.

Urgency despite Belgium and EU elections calendar, **many may be cruelly killed without GRECO action**. The crimes documented in this dossier, derive from a unique situation since 2020, where two corrupt governments began to exploit a deadly flaw in EU structure.

Belgium under Premier De Croo bribed the EU Commission to allow all forms of corruption and violation of law in Belgium, and this **bribery was received and reciprocated** with zest by EU Commission President **Ursula von der Leyen, successfully suborning EU top EU Institution staff to her family's crime network**, given Belgium has jurisdiction over most EU offices.

There are **3 major Brussels sources of wrongful death and murder** in this crime spree:

- **EU citizens and family members suffering and dying**, because of **Belgium violating EU law on health care access, illegally denying health care to those not paying bribes**. This is the set of crimes by which I became involved, and in which I **defeated Belgium in Brussels courts**.
- The **mass murder of Ukrainian troops, dying without proper training or equipment**, and also **deaths in Gaza**, so **Ursula von der Leyen's friends can enjoy billions of war profiteering**.

- The **direct threat by Brussels Belgium officials, to murder witnesses to courts and international bodies** about Belgium and EU crimes; I am myself a **target of this terrorism**.

The fragile and all-important **weeks after the 9 June 2024 elections in Belgium and the European Union**, are a key time for GRECO to take a strong position of inquiry into brutal and murderous corruption crimes afoot in Belgium:

- The current **corruption mafia of Belgium government ministers, will be seeking to reconstitute itself** in a new Belgian government, both in order to avoid criminal prosecution, and **to renew its bribery and corruption operations for years into the future**

- Ursula von der Leyen and the numerous EU institution staff who have committed criminal acts to support **bribery and extortion benefitting the Von der Leyen family, with Von der Leyen having misused her office to seek to enrich her husband Heiko in the covid vaccine business**, are desperate to continue in power, and to avoid criminal prosecution via a **renewed bribery relationship with the next Belgian government**.

Thousands of innocents may die in very cruel ways if GRECO does not act. And the EU itself may be destroyed if the Belgium - Von der Leyen crime complex is renewed. Von der Leyen is offering criminal opportunities 'like in Belgium' to all who assist in the crimes of her family.

Brief overview -

Institutional reforms and procedural changes in GRECO member State Belgium, resulting in serious violation of Council of Europe anti-corruption standards:

- **Defunding of the Belgian Federal Police and the Federal Police anti-corruption unit**, its Centrale Dienst voor de Bestrijding van Corruptie (CDBC), Office central pour la répression de la corruption (OCRC), with the claim that federal police budget is to be prioritised for 'crimes by extremist Muslims', so no budget is available for crimes by European-heritage white Belgian ministers and officials

- **Belgian ministers ordering police to 'Keep your mouth shut about Belgium corruption!'**, even when Belgian officials are reported to police as **threatening to murder anti-corruption witnesses**, Belgian police officers have hands completely tied by Belgian ministers

- **Establishing practices of ignoring Belgian government ethics institutions**, such as the **Belgian Federal Ombudsman** and even **Belgium's good-hearted King Philippe**, who has tried to intervene to help protect the rights of EU Citizens targeted by Belgium's bribe-extortion civil servants

- **Establishing practices of violating EU and Belgian laws and court orders**, by **false absurd claims that 'Belgian officials do not understand EU law'** and 'must study it for many years into the future' before acting on it ... this a clear crime, given how **EU Member States have speedy privileged access to EU Courts in Luxembourg for clarification**, EU judges extremely eager to quickly clarify EU law in Belgium, CJEU Luxembourg courts even responding informally to Belgian corruption victims ... Belgian government refusing to use CJEU access

- **Establishing practices of bribery acquisition by intentionally violating EU laws and citizen rights, in order to obtain bribes** from EU citizens who are unlawfully denied those rights, richer people often paying bribes as it is cheaper than paying lawyers for many years
- **Establishing practices of bribery acquisition via money-laundering of funds through corrupt Belgian law firms**, receiving tens of thousands of euros in legal fees after EU citizen rights are intentionally violated, the cases taking many years in slow Belgian courts, the **lawyers' invoices then being partly 'rebated' back to Belgian officials in cash bribes**
- **Establishing practices of attempted murder of poor EU citizens and their families by illegally denying them health care access in Belgium**, because they were too poor to pay a bribe, with the goal of either murdering the EU citizen and family members, or driving them out of Belgium, so there is no witness against the crimes any longer on Belgian territory, it being unknown as of now how many people have died from these crimes
- **Corrupting Brussels criminal prosecutors to be total agents of corruption, bribery and extortion for both Belgium and EU Commission offices** over which they have jurisdiction. Behaving exactly as if they are in receipt of **huge bundles of cash in 'Brussels Bribery City'**, Brussels prosecutors make a show of pursuing street crime by 'foreigners and migrants', as a **racist distraction from the truly huge crimes by Western European-heritage white officials, defrauding millions**, profiting from **war crimes in Ukraine and Gaza**, and menacing to murder anti-corruption witnesses. As you see in public police reports, shortly **after I won in Brussels courts** against the Belgian government mafia, **a Brussels prosecutor directly menaced to my face to murder me, telling me I needed to shut up about Belgian corruption, and if I wanted to stay alive I should leave Europe**, and live with the family of my partner in Southeast Asia.
- **Installing a top government minister known for being involved in bribery scandal and linked to murder** since the 1990s, Frank Vandembroucke, **the political assassination** of André Cools associated with him, his position a **menace of terrorism against media, lawyers and anyone** who may be involved in questioning bribery corruption in Belgian government
- **Establishing a full-scale corruption-protection relationship for Belgian government with the massively corrupt Ursula von der Leyen**, daughter of a terrorist bomber father, known for huge criminality with her **covid-vaccine-business husband Heiko von der Leyen**, involved in **corruption scandals with the Western armaments industry** since she was German Defence Minister from 2013 onwards, von der Leyen successfully ordering her EU staff that 'Everyone help my Belgian friends.'
- **Establishing a full-scale corruption-protection relationship for Belgian government in the heart of EU Institutions**, aided by Ursula von der Leyen, so **complaints to the EU about Belgium violations of EU law are illegally, unethically and criminally shunted to EU 'Justice' Commissioner Didier Reynders from Belgium, for his very corrupt 'handling'**, his assistant Monika Mosshammer being 'Von der Leyen's German sister', proven to be writing lies to help murder victims of Belgian bribery-extortion crimes; and with **EU Council President Charles Michel in the same political corruption circle** as Didier Reynders and De Croo ministers.

- **Establishing a full-scale corruption-protection relationship for Belgian government, leveraging Von der Leyen's successful suborning of all 4 of the EU's ethics bodies - the EU Ombudsman, the EU Ethics Secretariat, the OLAF prosecutor, and the EPPO Prosecutor, all of these four bodies publishing lies for the Belgium - Von der Leyen crime network, out of some combination of bribery or intimidation, Von der Leyen able to hint that she can have victims harmed and even killed via her NATO intelligence agency 'friends', but that she can be 'very generous' with all those helping the crimes of herself and Belgium - the classic crime gang options of plata o plomo, silver or lead, the bribe or the bullet.**

About the author of this dossier. Born a Polish citizen, I have seven earned academic degrees including the first two from Harvard University. In youth I was a prize-winning employee of the USA Department of Justice, and for a time nationally known in USA as an anti-corruption writer. I have lived in Europe since Poland joined the European Union in 2004, a resident of Brussels since 2006. **For many years I was a frequent visitor to EU Commission offices,** and have helped EU friends to draft EU regulations in better English. I write this dossier using 'inside information' at the EU Commission and also within Belgian gov't, where **brave individuals have provided me with direct information on corruption crimes.**

A unique corruption era in Belgium. As is known, 'everything changed' at the EU Commission after Von der Leyen became its corrupt President in 2019, her corruption then super-charged by the **corruption exchange deal with Belgium offered by the De Croo regime** in late 2020. **Honest employees in Belgium and the EU are terrorised, waiting for the Von der Leyen nightmare to end.** By now there are a shocking amount of current EU Commissioners and top EU officials, who behave as psychopaths with no ethical grounding, ready to tell any absurd lie because it is the wish of 'Queen Ursula', ready to help kill anyone Von der Leyen wants killed. **Von der Leyen orders full support for all crimes by Belgian government,** which now include the threats to kill me and others, in revenge for anti-corruption testimony.

Belgium extorting bribes for EU Citizen health care rights, and then trying to murder them if they can't pay. EU Court judges in Luxembourg are justifiably proud of their declaration of the simple, clear, universal EU citizen right to national health care system access, in whatever EU country they reside, when no other EU-approved system covers them: This in **EU Court Order C-535/19**, law honoured in most of the EU, but brutally violated by Belgian government criminals. Here, a one-page summary quoting exact words of the EU judges: <https://dr-les-sachs.eu/belgian-corruption/eu-court-order-c-535-19-health-care-rights.pdf>

The CJEU judges declared that **EU citizen national health care system access is intrinsically part of 'freedom of movement'** - otherwise, for low-income people, EU 'freedom of movement' becomes meaningless. In some cases EU citizens are covered by another EU-approved health system, e.g., if they work over the border, or in the EU civil servant system. But otherwise, **all EU citizens who can legally register in an EU country, have absolute right to immediately join that country's national health system.** Any laws or rules preventing such enrolment are totally illegal. In particular, those without jobs but legally able to be resident - pensioners, romantic partners of a local citizen, and so on - cannot be denied the right to

national health care in their EU country of residence. This is absolute. Here, filing at the EU Courts in Luxembourg informing shocked judges of **how Belgium spits upon EU Courts**:
<https://dr-les-sachs.eu/belgian-corruption/eu-court-ltr-crimes-von-der-leyen.pdf>

The EU law is so simple and clear, that only idiots and criminals claim they don't understand it. But such are the criminals in Belgium government, who shove one lie after another into victims' faces, illegally denying health care rights. Belgian officials first seek bribes direct from the citizen, and if not paid, they then get bribes via 'Plan B', from corrupt lawyers paid by Belgian gov't, who partly 'rebate' legal fees back to Belgian officials. When I received a new Polish passport, now as a pensioner in Belgium, **the Belgian mafia targeted me for bribery extortion, and I defeated them in the Brussels courts**, speaking myself before a panel of 3 judges about these shocking crimes. Announcement in English of my court victory here:
<https://dr-les-sachs.eu/belgian-corruption/leszek-sachs-wins-belgian-court-victory.pdf>

The court judgement that I won against the Belgian mafia, is here, in Dutch. Interestingly, the judges chose to make an even stronger point, that even without EU Court Order C-535/19, I still had the right to join the Belgian health care system even in terms of older Belgian laws.
<https://dr-les-sachs.eu/belgian-corruption/leszek-sachs-vonnis-rechtbank.pdf>

Shortly **after my court victory, the angry Belgian government called me into the Brussels prosecutor's office and threatened to murder me if I did not leave Belgium and Europe** altogether. I was also threatened with false criminal charges against me. The prosecutor spoke with glee of **Belgium being willing to kill an unlimited number of foreigners by illegally depriving them of health care, if they did not pay bribes** to his friends in what he himself called his 'mafia'. An English translation of part of the police report is here:

<https://dr-les-sachs.eu/belgian-corruption/belgium-gov-death-threat.jpg>

My filing with Brussels criminal court against the gangster prosecutor and the Belgian mafia, detailing their crimes, is here in Dutch:

<https://dr-les-sachs.eu/belgian-corruption/conclusie-sachs-23n003354.pdf>

For the larger picture in English, regarding Belgian gov't bribery extortion over health care rights, the racism and lies told by multiple Belgian officials as they tried to deny health care rights to my family, here is the **28 page dossier at the EU Commission on the crimes of Belgium, presented to Czech EU Rule of Law Commissioner Věra Jourová - who was ordered by EU Commission President Von der Leyen to never reply to me!**

<https://dr-les-sachs.eu/belgian-corruption/jourova-dossier-belgium-rule-of-law-violations.pdf>

My friends at the EU Commission, tell me that some staff under Cypriot EU Health Commissioner Kyriakides, wished to move aggressively against Belgium for its shocking violation of EU citizen rights and attempted murder by depriving me of health care - but Ursula **von der Leyen reportedly ordered all EU staff to take part in the Belgian crimes.**

The 'response' from the EU Commission to my filings on the Belgian bribery-extortion mafia, was **a wall of lies directed by Von der Leyen and her friend, Belgian EU 'Justice' Commissioner Didier Reynders.** Reynders' assistant, 'Von der Leyen's German sister' Monika

Mosshammer, wrote stupid lies about EU law, claiming EU countries could do what they want about health care. Even more shocking, **Swedish Tina Nilsson in the EU Ombudsman's office under Irish EU Ombudsman Emily O'Reilly, repeated and expanded these lies ... the EU Ombudsman reportedly under near-total bribery by Von der Leyen**, tho O'Reilly does some gentle needling of Von der Leyen about trivia such as 'lost sms messages' to try to pretend she is legitimate.

EU staff telling lies for each other and for Belgium, was quite complete. I received lies and insulting e-mails from EU Commission Chief Counsel, Spanish Daniel Calleja-Crespo; also-Spanish Ana Gallego in Reynders' office; Irish Rosita Hickey in the EU Ombudsman; and German Christian Linder under Latvian Ilze Juhansone in the EU Secretariat. Everyone lied and pretended all was good with trying to murder me and violate EU law; **all EU staff totally refused to discuss EU Court Order C-535/19**. You can see the lies that were told to me by Belgian-corrupted EU staff in this dossier online here:

<https://dr-les-sachs.eu/belgian-corruption/eu-belgium-crimes-eu-secretary-general.pdf>

In the Belgian-bribed EU mafia, top figures like EU Ombudsman O'Reilly, or EU Secretary-General Juhansone, refused to sign their name to anything, but **ordered their underlings to write stupid criminal lies** to me. Avoiding signatures was also true of the two **bribed-or-terrorised EU prosecutors**, Finland's Ville Itälä at OLAF, and Romania's Laura Kövesi at the EPPO. These figures sent me absurd lying unsigned e-mails from their offices, claiming they had 'no jurisdiction' over bribery, extortion, violations of EU court orders, and attempted murder crimes run out of EU offices. This would be funny except that innocents are dying.

Such is **the power of the Belgian corruption monster, leveraging the influence of Von der Leyen, who boasts of having NATO behind her to help harm and maybe kill her enemies**, but who is also able to distribute **bags of non-traceable bribery cash** for all assisting her.

The Belgium bribery-extortion crimes against EU citizens for their health care rights, are said to be carried on by the lower-level Belgian Health Ministry employees, as their 'slice' of corruption whilst **Belgian Health Minister Frank Vandenbroucke - now in his 2nd major bribery scandal, along with Didier Reynders - is publicly suspected of fraud in the millions**, some of this over 'covid vaccines', and this in turn **linked to Ursula von der Leyen's husband Heiko von der Leyen in the covid vaccine business**.

But as I learned from my friends inside the EU Commission, there was **another major source of Brussels and Belgian gov't bribery funds**, maybe even larger than the covid and 'vaccine' funds - the **funds from war crimes in Ukraine (and more recently in Gaza) from Von der Leyen's war profiteering friends**, with hundreds of millions in suspected corruption dating back to when she became German's Defence Minister in 2013.

This, very sadly, is corruption tied to quasi-genocidal mass murder. Reportedly, Von der Leyen knows and does not care, that tens of thousands - maybe hundreds of thousands - of Ukrainians died for nothing, except war profits. Many Ukrainian **dead troops received almost no training, and had poor equipment**, sent to death only to **'keep the money flowing'**.

Not to deny that there is also corruption in Russia. In fact Russia has recently arrested several top Russia Defence Ministry figures for corruption. But **the corruption of Von der Leyen and her fellow EU figures, mostly women, over the mass killing of Slavic men**, as reported to me, is **one of the most horrifying crimes** about which I have ever learned.

Von der Leyen apparently admitted to people around her, that the 2022 Russian incursion into Ukraine, was partly 'legal' based on the Kosovo precedent litigated in the Hague. Kosovo wished to separate from Serbia, the Hague court said this was legitimate. Donbass wishing to separate from Ukraine, after Ukraine violated the Minsk agreements, and killed something around 13,000 Russian speakers, was similar, according to Von der Leyen herself. Hence Von der Leyen ordered 'banning of Russian media' in the EU, to hide how Russia maybe had a right to defend Donbass Russians, and that Ukraine conflict was significantly stoked by her NATO 'friends'... **Von der Leyen didn't want Russian media to expose her own corruption.**

A further aspect of Von der Leyen war crimes, is that **EU staff view Von der Leyen as being 'blackmailed' by foreign powers, specifically the US gov't Pentagon war machine.** USA-linked media can at any time, decide to highlight the well-known EU crimes of Von der Leyen seeking to enrich her husband Heiko in the covid vaccine business. Von der Leyen is thus 'owned' by the US Pentagon, it is said, and both her personal profit and staying out of jail, are dependent on her continuing to serve those foreign powers. When Von der Leyen was being considered as a candidate to head NATO, this dossier was handed to NATO leaders on her: <https://dr-les-sachs.eu/belgian-corruption/nato-security-risk-von-der-leyen.pdf>

To append a note here about 'Qatargate' and the 'investigations' of EU Parliament members for corruption, investigations significantly involving Belgian police. This is not what it seems. This is not 'Belgium leading a fight against corruption', as Belgium's corrupt PM boasted.

The **'Qatargate' affair is well-known in Brussels to be a project of NATO intelligence agencies, to discredit the EU Parliament itself, where there was 'too much democracy'**, some 100 or so MEPs who dared to speak too much truth about things like the corruption of Von der Leyen. Von der Leyen herself boasted of these events as 'More power for me!' There is indeed bribery cash all over Brussels - you have lunch near the EU Institution buildings, you can see what look like valises of cash changing hands - but most of it is 'NATO-allowed' bribery. The Qataris did not understand this, nor the 'legal' methods of bribery by hiring people to give expensive speeches etc. The individual MEPs targeted were not important, 'Qatargate' was rather to shame the EU Parliament as a whole, and rather succeeded at that.

There is a **brutal aspect of racism in all these Belgian crimes.** Some of the health care bribery extortion involved murdering Muslims. Muslims too poor to pay a bribe to Belgium? Deny them health care, kill them! And in general in Brussels, 'crime by foreigners' is used to distract from crime by white European-heritage officials stealing millions and killing thousands.

You see in the files how Belgian officials told me how I am only a '2nd class' Polish citizen, not having rights like these Belgian and Western Europeans. 'Poles are for fixing plumbing, not

having rights like us.' The EU Commission machine is known for rarely promoting people from the Eastern EU to top positions, and indeed most of the EU and Belgian staff who wrote lying e-mails, are white Western and Northern Europeans.

There is a callous, racist attitude toward the perhaps half-million now dead in Ukraine. Many Western and Northern Europeans in the EU Commission - largely women, as well - simply don't care that even Ursula admits the war is pointless and just 'so we can make money'. Furthermore, **Von der Leyen believes 'feminism' is a cover for bribery, fraud of millions and billions, and mass murder of tens of thousands.** 'No one will question European Commission WOMEN!' she advises. And for herself, there is the ultimate racist claim, 'I am powerful German woman! No one should be questioning me!' When Ursula von der Leyen was young, she saw her father Ernst Albrecht join with former Nazis in a false-flag terrorist bombing blaming 'leftists', and get away with it, her father her 'inspiration' for her own life of crime.

Of course, GRECO needs courage to confront **Belgium, which as you see, is proven to be the most dangerously corrupt member state in the Council of Europe:**

- Belgium's Health Minister F. Vandenbroucke is linked to **the murder of André Cools**, and he is today mis-using taxpayer funds to try to murder people by illegally denying them health care - perhaps €50.000,00 of tax funds spent in attacks on me alone.
- There are **open public threats to murder me** by corrupt Brussels prosecutor Gilles François.
- Slovak Prime Minister Robert Fico, also like me a critic of Brussels corruption, was recently **shot in the street** under suspicious circumstances.
- Georgia Prime Minister Irakli Kobakhidze reports **being threatened by EU Commissioner Varhélyi** with 'You know what happened to Fico?'
- Von der Leyen would like GRECO to keep in mind she has many **powerful friends in the NATO war machine**, and 'bad things can happen'.

But I hope GRECO has the courage to continue, against the most vicious member state mafia it has ever confronted.

Very sincerely yours,
